

GREEN POLICY STATEMENT

We recognise that our work may have a direct or indirect effect on the local and/or regional environment. We are therefore committed to reducing any harm that this may cause on the environment.

Our green policy is to constantly look for ways in which we can improve our green credentials.

We will focus on:

- Reducing waste
- Reusing materials at every opportunity
- Repair rather than throw away where we can
- Recycling
- As our green culture becomes established and embedded, we aim to:
- Encourage our staff and sub-contractors to be responsible, corporate green citizens
- Utilise energies and water sparingly
- Consider environmental impacts in our purchasing
- Reduce the need for transport and its impacts on the environment
- It is our intention to operate our business in an as environmentally friendly way as we can.

What we are doing:

- We use Bio-diesel and LPG fuels where possible
- Our employees and sub-contractors drive at optimum speed to aid less fuel consumption
- We work with other operators who believe in our policies
- We reuse or recycle all of our incoming packaging materials
- We minimise our use of paper. Our increased use of email and internet greatly reduces hard copies
- We recycle all computers and hardware
- We ensure any new projects and purchases are as environmentally friendly as possible

What we intend to do in the future:

- We will encourage employees and sub-contractors to recycle bottles, plastics and aluminium cans by locating recycling bins.
- We intend to purchase our electricity from suppliers who re-invest in renewable energy sources
- Where possible we will choose to source our materials from suppliers who operate in an environmentally friendly manner and who are geographically local to us to reduce delivery miles.
- We will chose our vehicles with fuel efficiency in mind and their fuel consumption will be closely monitored
- We will encourage our business partners to strive for the same high level of environmental care.

Mr Nick Cheetham
Proprietor

GREENGRASS GROUND MAINTENANCE
